Inflection Point Solutions

Inflection Point Solutions (IPS) is a Veteran-owned
Small Business committed to excellence in the
delivery of Professional Acquisition Support Services.
An “Inflection Point” marks the moment of positive
change in any system. IPS Corporation is position to

be the catalyst for positive
change in areas critical to
your success in Federal
Government Contracting.

Supply Chain Management &
Subcontract Compliance
Service

Supply Chain Management & Subcontract Compliance: The American public and news media are closely focused on the conduct of Government contractors as we navigate through the current global economic challenge. What if you picked up the newspaper tomorrow and read that a company was responsible for the misappropriation of Government funds, violations of law and/or poor business practices? Even when unintentional, the event is disruptive to the Federal Government industrial base. Mitigate the risk via purchasing system reviews, risk matrix analysis, and other IPS services. **Choose IPS as a value-added Contract Management partner. IPS delivers *BIG Business Results with Small Business Flexibility!***

The Federal Acquisition Regulation System outlines specific responsibilities related to managing Government Contracts and Subcontracts. IPS is committed to empowering organizations, teams and individuals via professional services, training, best practices, strategic partnerships, and the IPS A³ Solution—*ensuring mission accomplishment and achievement of desired outcomes.*
